OBJECTIVE

Ambitious and results-driven student, currently in the second year of a Bachelor's degree in Computer Science at the University of Ottawa. Equipped with a strong foundation in programming and problem-solving, I am eager to apply my technical skills and passion for innovation to real-world projects. Seeking opportunities to grow and thrive in a dynamic environment that fosters creativity and continuous learning.

SUMMARY OF QUALIFICATIONS

- Proficient in Python, Java, Visual Studio Code, and Android Studio for software development.
- Experienced in creating Android applications with database management (Firebase, SQLite).
- Knowledgeable in hardware: sequential circuit design (Quartus) and computer system simulation.
- Strong foundation in data structures, algorithms, and UML modeling.
- Skilled in Git/GitHub for project management and version control.
- Bilingual in French and English with good communication skills.

CURRENT EDUCATION

Bachelor's in computer science (in progress)

University of Ottawa, ON:

- **Expected Graduation Date:** May 2027
- **Key Projects:**
 - Developed an Android application for managing custom PC orders, integrating Firebase for authentication and data management.
 - Simulated sequential circuits and designed hardware systems using Quartus.
 - Created a relational database for tracking inventory and orders in a collaborative project.
 - Designed UML models for academic software development projects.
